

WELCOME BACK!

As of Friday June 26, 2020, Wind Gap Laundry and Tanning will reopen for business under the following guidelines:

All customers must make an appointment either over the phone or in person via the standard waiting list we will create. You will be able to tan when you desire providing that we do not exceed 50% capacity. Since we only have 4 stand up tanning booths, this means that we can accommodate only 2 tanners at a time and any one else wishing to tan, if on the premises, will have to wait in your car until a tanning booth is available.

As for preexisting tanning packages that have been previously purchased, the following guidelines will be in place:

All "Sessions" packages are automatically covered for one year from date of purchase so there should not be an issue having your full package available going forward. If a "Session" package runs out of time before you fully use it, we will reinstate the 3 months of time for the shutdown to your allotted timeline after we research your account.

Any "Unlimited" packages that have "expired" or have been shortened due to timing of the shutdown will be re-instated for the 3-month lost time. Please fill out our log so we can research (takes a week to 10 days) and apply the correct timing accordingly after research is completed. In the meantime, to tan, you will be required to purchase a new package while we research your old package. Sorry for any inconvenience this will cause but it is the only way we can correct for the lost time due to the shutdown.

Please follow standard retail CDC guidelines of wearing a mask and social distancing.

Welcome Back!.....Wind Gap Laundry and Tanning
